

**INTERPRAEVENT 2022 International Symposium**  
**Oct. 17-21 2022 Taichung, Taiwan**  
**Natural Disasters Occurrence, Reduction,**  
**and Restoration in Mountain Regions**

Under the impacts of global warming and climate change, the complex geological environments, climate conditions, and continued change of land use/land cover in mountain regions have made it more challenging to predict mountainous hazards and their impacts on communities. The main topic of the symposium “Natural Disasters Occurrence, Reduction, and Restoration in Mountain Regions” is focused on natural hazards from the aspects of field investigation, occurrence monitoring, mitigation strategy, risks analysis, engineering governance, resilient community, and ecological restoration. As a prestigious event, the symposium provides an international platform and great opportunity for the experts and scholars in all relative fields to share the precious ideas, experiences, and research. Your participation is the most welcome for the success of the great event!

### Sessions

- Disasters caused by dammed-lake outbursts and driftwood, debris/mud flows;
- Disasters caused by landslides and rockslides;
- Disasters caused by seasonal floods and surface erosion;
- The relationships between natural hazards and climate change;
- Strategy from natural disasters to restoration;
- Stream ecosystem services and nature-based solutions;
- Disaster-resilient community and rural regeneration.

### Program

- **Symposium**

Date : Oct. 17-18 2022

Venue : International conference room in Humanities Building, National Chung Hsing University

Address : 145 Xingda Rd., South Dist., Taichung City 402, Taiwan (R.O.C.)

- **Field trip**

Date : Oct. 19-21 2022

Venue : Field trips to spots of natural hazards and restoration, such as landslides, dam breach experiment, warning system, village regeneration and others in central Taiwan.

### Submission

- Oral presentation
  - Submit a paper to *Water* (SCI, IF:3.101) Special Issue "Natural Disasters Occurrence, Reduction, and Restoration in Mountain Regions".  
[https://www.mdpi.com/journal/water/special\\_issues/disasters\\_restoration\\_landslides](https://www.mdpi.com/journal/water/special_issues/disasters_restoration_landslides)
  - Please follow the submission guidelines of *Water*:

<https://www.mdpi.com/journal/water/instructions>

- Once accepted, authors registered for the INTERPRAEVENT Symposium 2022 will be eligible to a 20% discount for publication in the *Water* Special issue.
- Poster
  - Submit a 3-page extended abstract by using the templet.  
<https://interpraevent2022.nchu.edu.tw/Center/Submission.aspx>
  - More information will be continue updating on our website.
