

.....
Subject: Danube Conference in Vienna, Austria, 21-23 August 2023 – Extended Deadline for Abstract Submission: 30 November 2022
.....

Dear friends and colleagues,

We would like to inform you that the online abstract submission for the

“Conference of the Danubian Countries on Hydrological Forecasting and Hydrological Bases of Water Management”

which will take place in

Vienna, Austria from 21-23 August 2023

is extended until 30 November 2022!

Please, submit your abstract at:

<https://interconvention.eventsair.com/vienna-water-conferences-2023-wlr-iahr-dc/abstractsdc>

This conference will focus on hydrological topics and current research needs in the Danubian region. Danube Conferences are the discussion platform for hydrologists from different countries in the Danube basin.

We strongly encourage scientists and practitioners to present their research results and experiences in the fields of

- Flood Forecasting and Management in the Danube River Basin
- Drought Prediction and Implications for the Danube Water Management
- Water Cycle and Water Resources within the Danube River Basin and Sub-Basin – Surface and Groundwater Interaction
- Climate Change Impacts on the Hydrological System in the Danube River Basin
- Ecohydrology as an Innovative Concept for Improved Water Security and Enhanced Biodiversity
- Use of Hydrological Data and Analyses as a Base for Water Management
- Policy Changes Induced by Specific Water Management Concerns

The conference aims to foster the exchange of hydrological basic information, to improve and adopt new models and techniques for hydrological forecasting and parameters at several time and space scales, to deal with disasters appropriately, to better articulate the role of hydrological and biotic processes in aquatic systems, to link different fields of science, and to promote cooperation of the Danubian countries. Furthermore, the conference will offer R workshops focusing on the topic of hydrology.

All information can be found on our webpage: <https://rivers.boku.ac.at/danube-conference/>

If your colleagues are interested in submitting an abstract, too, please forward this e-mail to them. If you have any further questions, please do not hesitate to contact us.

Abstract submission is extended until 30 November 2022 and we are looking very much forward to receiving your contribution!

Please note that each author can submit a maximum of 2 abstracts and only one author can be the presenter. Your abstract cannot be more than 450 words.

Important dates:

30 August 2022: Abstract submission is opened

30 November 2022: Deadline for abstract submission

31 December 2022: Notification of abstract acceptance to authors

Special information: In honor and celebration of the 30th anniversary of the Danube Conference, the 40th anniversary of the IAHR World Congress, and the 5th anniversary of the World's Large Rivers Conference, all three conferences will be held simultaneously in Vienna under the motto "Vienna Water Conferences 2023"!

You can purchase a special combined ticket to attend all three outstanding events, which also allows you to submit three abstracts!

Further information can be found on our webpage: <http://rivers.boku.ac.at>

We would be happy to see you in Vienna in 2023.

Nice greetings, sincerely

Helmut Habersack

Chair of International Scientific Committee (ISC)
