

LAUNCH OF THE TEAMS INTERACTIVE PLATFORM

Science-related UNESCO Chairs and Centers from South-East Europe and part of the Mediterranean

20 July 2023 11.00 – 12.00 CEST

Background

To maintain momentum following the [First Regional Meeting of Science related Chairs and Centers in South-East Europe and part of the Mediterranean](#) held in October 2022, the UNESCO Regional Bureau set up an interactive Teams platform, with the aim of facilitating knowledge sharing and experience exchange between UNESCO Chairs and Centers in the region. This platform is currently accessible by participants of the meeting held in October 2022, and will be open to all **Science-related** UNESCO Chairs and Centers from the Region willing to contribute. The platform gives the possibility to establish channels dedicated to different topics and provides a space of open access to shared documents. The members of the platform may share knowledge products through the platform and meet online through regular update meetings to build project proposals, and enhance capacity and coordination.

Objectives

The purpose of the meeting is to launch the Teams interactive platform and enable a mutual learning about how best the platform can provide support to Science-related UNESCO Chairs and Centers network in the region. It will represent an opportunity of dialogue and scoping exercise for opportunities and capacity building activities. Different thematic channels will be created based upon Chairs and Centers' suggestions shared during the meeting.

Agenda

| | |
|-------------|--|
| 11:00-11:05 | Welcome <i>UNESCO Regional Bureau for Science and Culture in Europe, Science Unit</i> |
